

5-4-18 Warm-up Directions

- Take Cornell notes in your lab journal on slides #2 – 5. Turn the title into a question and summarize the information on each slide on the left. The more information you have, the more you can use on the test! No cornell notes format = no credit!

Four Ocean Zones from top to bottom

Deep Ocean Characteristics

- Cold
- Dark
- Extremely High Pressure
- No Photosynthesis
- Life is Sparse (Short Supply)
- Little food

What is an **adaptation**?

- Adaptation:
 - A **change** that helps a species **better survive** in its environment.
 - Ex. Camouflage, migration, hibernation, hair

What organisms can live in the deep ocean?

There are harsh conditions present in the deep sea. Only marine life that have developed specific adaptations can survive the abyss!!!
